**Regular****18pt**

Initiated as a project at **Werkplaats Typographie**, **Dries Wiewauters** began exploring a stencil based system originally designed by **Joseph A. David**. In **1876** David acquired the patent for a system that he had invented for sign-writers. **With a universal stencil, all UPPERCASE, lowercase, numbers, punctuation, accents etc could be sourced from the grid of the stencil. Dries used this stencil or Plaque Découpée Universelle (PDU) and began an exploration into the liberties and restrictions of a unified grid. We are happy to now present this new release.**

The font itself has **2** cuts, **Regular** (a filled version of the **Stencil**), and **Outline** (this cut staying true to the hand rendering via the stencil). Alongside these cuts are corresponding pattern cuts in outline and regular. **Boasting a glyph count of 1578 for each cut of PDU, alongside 229 glyphs included in the patterns. The corresponding pattern is provided free with the purchased with the regular and outline cuts of PDU.**

**PDU** comes in **OpenType** format, with the following **OpenType** features: **Ligatures, Discretionary Ligatures, Contextual Alternatives, Stylistic Sets, Contextual Swash, Case Sensitive Alternatives, Tabular & Proportional figures, Tabular & Proportional old-style figures, automatic fractions and extended Small-Caps support.**

**About Colophon Foundry**

Colophon is an international, award-winning type foundry based in London (UK) and Los Angeles (US). We create, publish, and distribute high-quality retail and custom typefaces for analog and digital media.

Since 2009, Colophon has tasked itself with producing fonts that are composed with aesthetic and technological care, prompting a reputable library of new classics that couple typographic history with contemporary sensibilities. In tandem with its own designs, the foundry hosts original typefaces drawn by influential practitioners from varied design disciplines. The resulting catalogue offers graphic designers and users-of-type a series of indelible digital tools, each with a distinct typographic identity.

In addition to the offerings in our retail inventory, we accept commissions for custom fonts, font families, and logotypes, as well as tailored / bespoke versions of our existing typefaces, including language extensions.

Colophon Foundry's self-initiated and commissioned work in type design is complemented by independent and collaborative initiatives in publishing, editing / curation, exhibition-making, and teaching, with a focus on local and international partnerships with institutions of all sizes.
